How to Land \$1,000 Website Deals Without Upfront Selling:

- Find 5 local or US businesses (Dentists, MedSpas, Law Firms, AI Startups) with outdated, non-responsive websites.
- Ask Hermes: "Build a modern luxury landing page for [Business Name]." Hermes outputs the live HTML/CSS file in 1 minute.
- Host it on GitHub Pages / Vercel for free, and send a 30-second video/email to the owner: "Hey [Name], I noticed your site was losing mobile traffic, so I redesigned your homepage with sub-50ms load speed. Check the live demo here. If you like it, I can deploy it to your domain for \$500."
- Conversion rate on pre-built demos is **over 25%** because they see the finished product before paying a single dollar!

THE PASSIVE DIGITAL PRODUCT PIPELINE (EARN WHILE SLEEPING):

- Set up a free store on [LemonSqueezy \(lemonsqueezy.com\)](https://lemonsqueezy.com) or [Gumroad \(gumroad.com\)](https://gumroad.com).
- Let Hermes create 3 high-demand digital products: (1) "2026 Remote Job Hunting OS", (2) "100 Production AI Prompts for Customer Support", (3) "SaaS Landing Page Template Kit".
