Active Meta Ad Library Prospecting Database & Mastermind Viral Ad Creative Solutions

Project: Project Reach CRM	Creator: Dxrk sky
Autonomous Engine: Hermes Agent	Git Verified: obsiagent-boop (obsi.agent@gmail.com)
Scope: 100 Live D2C Brand Audits	Niches: Supplements, Skincare, Streetwear, Tech

EXECUTIVE OUTREACH SUMMARY & MONETIZATION MANDATE

This master dossier compiles 100 active D2C advertisers scraped across the Meta Ad Library running low-converting, high-fatigue ad creatives. For each brand, we diagnose the exact visual flaw causing dropoff and provide an engineered 3-second pattern-interrupt hook, visual scene prompt for AI video generators, and a high-converting cold pitch script. This blueprint gives Project Reach an immediate pipeline to close \$250-\$1,000 ad redesign packages and \$2,500/mo creative retainers with zero upfront infrastructure cost.
